

PUBLIC CONSULTATION

Worthing Homes would like to invite you to its live public webinar to find out more and ask the team questions about the emerging proposals to develop the Site.

Development of the Site provides a unique opportunity to deliver a high-quality and sustainable scheme with **10 much-needed 100% affordable new homes** for local people, with associated car parking, landscaping and private and communal gardens.

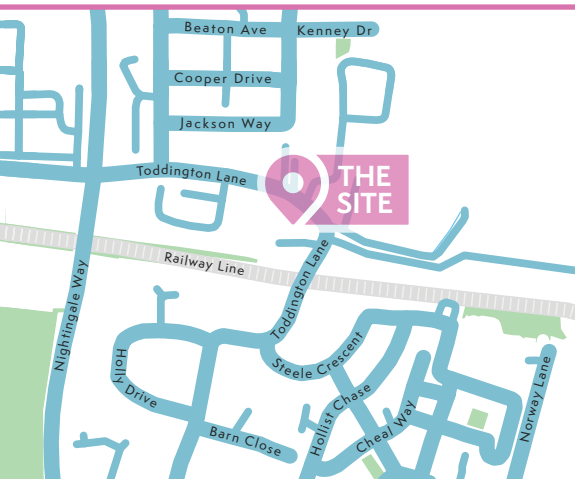

PUBLIC WEBINAR

EMERGING PROPOSALS

Our emerging proposals are being sensitively designed with the Site's surroundings in mind to reflect and complement the character of the local area.

We are still in the early design stage of the proposals, but currently the scheme could provide:

10 new 100% affordable homes for local families

Sustainable, energy and water efficient homes

Bin and bicycle storage in private gardens

A mix of new homes including two- and three-bedroom homes

Extensive planting around Toddington Lane site boundary and the retention of existing trees and shrubs

Retention and enhancement of existing Site entrance

Pedestrian access onto Toddington Lane to the north of the Site

Communal and private gardens

21 on-site parking spaces

EMERGING MASTERPLAN

Our emerging masterplan is designed with low energy principles to minimise any impact on the environment and reduce energy bills for future occupants.

GET INVOLVED AND HAVE YOUR SAY

We are looking forward to sharing our emerging proposals, answering your questions, and hearing your views and feedback at our live public webinar.

Your local knowledge, thoughts and suggestions are important and will help us further shape the proposals for the Land at Toddington Lane ahead of submitting our planning application later this summer.

For us to be able to consider your feedback, we kindly ask that your comments are with us either online, via email, or by post by midnight on **Friday 26th July 2024**.
